

Hytera Safety Information Booklet

Hytera Safety Information Booklet

Preface

To avoid bodily injury or property loss caused by incorrect operation, carefully read all the information before using Hytera products.

EU Regulatory Conformance

As certified by the qualified laboratory, your Hytera product complies with the essential requirements and other relevant provisions of the Directive 2014/53/EU and 2011/65/EU. A copy of the signed EU Declaration of Conformity is enclosed with the product, and is available through the dealer, importer, or manufacturer.

Battery

- Do not use the battery below -20°C or above $+60^{\circ}\text{C}$ to avoid battery swelling or other risks.
- Replace the battery only with an approved battery. The use of an unapproved battery may cause fire, explosion, leakage, or other hazards.
- Before charging the battery attached to the product, turn off the product to ensure a full charge.
- Do not charge the battery near any strong radiation source.
- Do not charge the battery below 0°C or above 45°C .
- Do not charge the battery that suffers leakage, deformation, or overheating.
- Do not charge the damp or wet battery before it is completely dry.
- Do not charge the battery with an unapproved charger.
- Do not charge or replace the battery in a potentially explosive environment.
- Do not remove the battery or unplug the power cord during charging.
- Store the battery at a temperature between -20°C and 35°C , and humidity between 30% and 60%.
- Keep metal objects away from the charging contacts of the battery to avoid short circuit.
- Do not expose the battery to direct sunlight for a long time nor keep it close to other heating sources.
- Do not expose the battery to extremely low air pressure that may cause an explosion or leakage of flammable liquid or gas.
- Do not dismantle, cut, crush, bend, or puncture the battery to avoid leakage,

overheating, or bursting.

- Clean the charging contacts with a clean and dry cloth regularly to avoid charging failure caused by dust accumulation.
- Do not dispose of the battery in fire or a hot oven.

Charger/Multi-unit Charger

- Use the charger provided by Hytera.
- Do not use a damaged charger.
- Ensure that the charger is easily accessible and removed properly.
- Keep the charging contacts away from the conductive materials, such as liquids, dust, metal powders, and pencil lead.
- Disconnect the charger from power supply when not in use.
- Do not drop or disassemble the charger.
- Do not touch the charger with wet hands.
- Clean the charger with a clean and dry cloth.

Power Adapter

- Ensure that the power adapter meets the requirements in EN62368-1:2014+A11:2017 and it is tested and approved according to national or local standards.
- Use the power adapter in a safe environment to avoid heat-related damage.
- When charging the product, ensure that the power adapter is plugged into a socket near the product and is easily accessible.
- Do not use the power adapter if any of the following conditions occurs:
 - » The power adapter plug is damaged.
 - » The power adapter is exposed to excessive moisture or other liquids.
- Do not dispose of the power adapter with household waste.
